

The Story

Thank you for choosing to eat with us. We believe that our Café is unique in Wakefield but not just because of the excellent service and great, locally sourced, home-made food. (We genuinely make everything, including all of the delicious cakes....)

We believe in using our business to help others and not just make profit for ourselves. We are a 'not for profit' company, meaning that all of the money we make here goes back into the business to benefit the local community.

We are helping others in our local community to better themselves in a variety of ways. We have plenty of things in the pipeline and are always open to suggestions, so if you have an idea of how we could help people in your community then please feel free to speak to us and tell us your views.

Outside Catering

Serving food here in the cafe isn't all we do. We have a wide range of outside catering services available and the knowledge and expertise to do just about anything - aside from the many corporate lunches we do on a daily basis!

If you have an event, no matter how large or small, please ask for more details or just drop us a quick email and we will get back to you straight away.

We have catered for many events so far - weddings, birthdays, funerals and office lunches to name a few. We have even taken our lovely food as far as Derbyshire to cater at rented cottages and while there did a cocktail masterclass too. We take pride in our services and always give a good competitive price, and work with our customer to give them exactly what they want to suit their tastes and budget. In short - if you need some catering, come to us first, satisfaction guaranteed!!! If you have any queries about anything, or just want a chat, please ask a member of staff and we will do what we can to help.
